Searching for Grid Sets

1. Open Clicker 5 – in the Explorer Window, click on the LearningGrids.com link - sign in with simmons and password simmons
2. Clicker on the Clicker 5 icon on the left hand sidebar
3. Select a Category: **Language Arts** – you'll see that there are 145+ Clicker 5 grids
4. To limit your search, click on a Sub-category: **Talking Books** and you'll see 33+ resources listed
5. Click on the name of the grid set to see a description and an example of a grid: **The Shopping Trip**
6. Click **Run Now** – the grid set opens up in Clicker 5! Click the i to read about the grid set – click the right arrow to start the activity
7. Click on the Explorer Folder on the menu bar – click on LearningGrids.com link
8. Another way to search is to type your search words in the **Search Text Box** at the top right hand corner of the window: type talking books
9. You'll see all grids with the words talking and books in their description

My Folders

1. In the LearningGrids account you can add folders and then either add favorite grids to the folders or upload your own grid sets. This will help you organize your grid sets.
2. Click on the **My Folders tab** and you'll see Folders where you'll be adding Clicker Grids to the appropriate **Stages Folder** – at the end of the class we'll all have access to these grids

Uploading Grid Sets

1. Click on the Upload Files Tab – select the appropriate folder to upload your grid – click Upload Now
2. Browse your hard drive to find the grid set you created. If you saved it in the Explorer Window of Clicker 5 then the path on a Mac is:
 - a. /Users/Shared/Crick Software/Clicker 5 files
3. on a PC the grids are located:
 - a. C:\Documents and Settings\All Users\Documents\Clicker 5
4. You can find this location by clicking on Options – Program Management
5. Select the grid set - you will need to enter a description for your grid set – select the age range - click Continue
6. Select a grid to show when the description is displayed. Click Finish - Continue
